

CLEARVIEW[®] ACCESSORIES

PRODUCT CATALOGUE | 2023 COLLECTION

Clearview Accessories™ began in 2006, as a family run business owned by entrepreneur Mike Cowan and his son-in-law Jay Praag. In the years that followed, Mike and Jay turned their small family business with three full-time employees, into one of Australia's most respected 4WD and Touring Brands.

With a strong passion for the automotive industry, quality design and discipline in professional workmanship, our trust is built within our values of creating high quality ADR compliant designs. Since our inception, our unrelenting commitment to creating solutions found nowhere else, has helped us establish our position as a leader in manufacturing unique 4wd and touring accessories. With an entrenched enterprising spirit, we are dedicated to creating value for, and delighting our customers.

From humble beginnings, Clearview Accessories™ has grown and today manufactures a range of unique, quality products for your next off-road adventure!

OUR RANGE

TOWING & TOURING

Pantry	18-19

FRIDGE ACCESSORIES

Power Slide	20-21
Easy Slide	22-23
Expanda Slide	24-25
Fridge Cage	26-27
Clip-On Tray	28
Cable Saver	29

When it comes to road safety, having full visibility of your vehicle and your caravan, trailer or horse float is paramount. Clearview Towing Mirrors™ extend your field of vision when towing, changing lanes or reversing, to help see you to your destination safely.

Clearview Towing Mirrors™ are designed to take the stress out of worrying about compliance, as towing mirrors are a legal requirement when towing anything wider than your vehicle. From Cape York's Telegraph Track to the Gibb River Road, Clearview Towing Mirrors are purpose-built tough for Australian conditions!

Choose between:

Compact Towing Mirrors feature a large, single convex mirror in a sleek, compact design

Next Gen Towing Mirrors feature a large, single flat mirror above a smaller convex mirror in a sleek design

Original Towing Mirrors are much larger than any standard mirror and feature a huge single mirror above a smaller convex mirror - for serious towing!

Features include:

Clearview Towing Mirrors™ fold inwards or outwards if accidentally struck whilst 4WDing or parked. They are designed to lock into place in any of the three pre-set pivot positions;

- fold towards door
- standard driving position
- fold towards bonnet

Clearview™ mirrors mount securely in the same position as your original mirrors. They are true replacement mirrors, designed to use the same holes, fittings, and wiring (when applicable) as your original mirrors for plug & play installation.

clearviewaccessories.com.au

Double telescopic steel arm construction, with 2 or 3 arm positions (depending on model), won't retract when driving at high speeds or when passing large trucks.

Available in Black or Chrome. Next Gen and Compact models also have the option of a non textured blank mirror cover, which can be painted to colour-match your vehicle by a third-party automotive paint shop.

	Black	Chrome	Raw
Compact			
Next Gen			
Original			

All Clearview Towing Mirrors™ are engineered specifically for each vehicle and feature most of the same functionality as the vehicle's original mirrors.

360°
Camera

360 degree parking system allowing for extra vision of all angles of the vehicle. Located below the mirror head. Camera must be removed from the OEM mirror and installed into your new Clearview Towing Mirrors™. Only available for vehicles with pre-existing 360 camera feature. **Options may vary depending on make, model and year of vehicle.*

Power-Fold

Clearview Mirrors will electrically fold towards the body of the vehicle when you lock the vehicle, and electrically return to the driving position when you start the vehicle. Only available for vehicles with pre-existing power-fold feature. **Options may vary depending on make, model and year of vehicle.*

Heated
Glass

Demists and defogs glass on the mirror in frosty, icy weather, working off the same de-mist system as the vehicle. Frost and ice will melt away from glass when turned on. Only available for vehicles with pre-existing heated glass feature. **Options may vary depending on make, model and year of vehicle.*

Blind Spot
Monitoring

Ultrasonic or radar sensors located on the side and rear of vehicle body. Small indication light on the mirror glass alerts you when another vehicle is in your blind spot. Audible alert (beeping) or an induced vibration or light shake of the steering wheel will occur if the turn signal is flashing. Only available for vehicles with pre-existing BSM feature. **Options may vary depending on make, model and year of vehicle.*

Memory
Adjustments

Allows different drivers to recall the position of the mirror, steering wheel and seat. Settings are found on the inside of the driver's door armrest. Only available for vehicles with pre-existing memory feature. **Options may vary depending on make, model and year of vehicle.*

OAT
Sensor

An Outside Ambient Temperature (OAT) sensor can be found in some mirrors to monitor air temperature. This information is transmitted to the car's computer, which controls the heating and cooling based on your preferred interior temperature. **Options may vary depending on make, model and year of vehicle.*

Electric

Clearview Mirrors provide vertical and horizontal adjustment of the mirror glass to suit your preferred viewing angles. The single mirror model offers electric adjustment of the mirror and the double mirror models allow for the larger top mirror to be electrically adjusted. The bottom mirror is manually adjusted. Only available for vehicles with pre-existing electric feature. **Options may vary depending on make, model and year of vehicle.*

Indicators

Lights in the side of the mirror will flash to notify others that you have intentions to change lanes or turn. Clearview indicator mirror models include clear indicator lens with amber LED lights. Indicators in all manufactured mirrors are a standard CAT5 indicator. 10 LED lights inside lens. Only available for vehicles with pre-existing indicator feature. **Options may vary depending on make, model and year of vehicle.*

CAT 6
Indicators

The Clearview CAT 6 LED Indicator option is designed for vehicles with a GVM upgrade. These indicators comply with ADR 6/00 Category 6, a requirement for some GVM upgrade vehicles. **Available to order with CAT6 indicator, if required.*

Peace of mind with the knowledge that Clearview Towing Mirrors™ are compliant with all applicable Australian Design Rules, ensuring their legality in all states and territories of Australia.

Clearview Towing Mirrors™ are proudly Australian Owned and Built.

We build our mirrors tough. We make them in Australia. We test them in Australia. And we build them to withstand the rigors of the Australian outback. If they withstand the Australian outback, they're tough enough for any country!

As we build our mirrors in Australia, spare parts are readily available in Australia.

The Clearview Next Gen & Compact Towing Mirrors extend out as far as the Clearview Original Mirrors but retract closer to the factory profile of the standard mirrors they replace!

When set to their normal driving position, the mirrors remain unobtrusive during your daily commute when you don't need extended mirrors, or when you need to fit into tight spaces. For a clearer view of your set up when towing or reversing, Clearview's Next Gen & Compact Mirrors extend a full 180mm, extending your field of vision to help see you to your destination safely.

Fully Extended Towing Position

Fully Extended Towing Position

Compact Towing Mirrors feature a large, single convex mirror in a sleek, compact design.

COMPACT TOWING MIRROR FEATURES:

- Mirror size and driving position comparable to OEM mirrors
- The Clearview Compact Towing Mirror is our smallest towing mirror which sits on a double slide and slides right back into the vehicle when not towing, just like an OEM mirror.
- Telescopic 2-stage extension provides 3 towing positions to choose from, and won't retract when driving at high speeds or when passing large trucks.
- For a clearer view of your set up when towing or reversing, Clearview Compact Mirrors extend a full 180mm, extending your field of vision to help see you to your destination safely.
- Large convex single mirror reduces the objects that it reflects, allowing the driver to have a much wider field view and diminishing blind spots.
- Single mirror models are recommended for vehicles with large canopies or for towing anything under 15ft.
- Choice of Manual Fold or Power Fold* (*Options may vary depending on make, model and year of vehicle)
- 2-in-1 Category 5 LED indicator light/clearance light
- Category 6 LED Light available as optional extra
- Clearview towing mirrors™ fold inwards or outwards if accidentally struck whilst 4WDing or parked.

The Next Gen top mirror has a large, flat surface that can reflect vision directly down the sides of your caravan or trailer, and the bottom, smaller convex mirror, reduces blind spots by allowing you increased vision out to the lanes beside your vehicle.

NEXT GEN TOWING MIRROR FEATURES:

- Mirror size and driving position comparable to OEM mirrors
- Telescopic 2-stage extension provides 3 towing positions to choose from, and won't retract when driving at high speeds or when passing large trucks.
- For a clearer view of your set up when towing or reversing, Clearview Next Gen Mirrors extend a full 180mm, extending your field of vision to help see you to your destination safely.
- Large top mirror 1:1 ratio. This large, flat mirror provides a narrower field of view, reflecting true distance for reversing. It provides an exact reflection of what's happening behind you.
- Smaller bottom mirror. This slightly curved mirror makes objects appear closer than they are. The convex mirror reduces the objects that it reflects, allowing the driver to have a much wider field view and diminishing blind spots. This mirror provides a better understanding of what's happening around the vehicle.
- Due to their double mirror design, Next Gen's are recommended for all your towing needs.
- Choice of manual or power folding* (*Options may vary depending on make, model and year of vehicle)
- 2-in-1 Category 5 LED indicator light/clearance light
- Category 6 LED Light available as optional extra
- Clearview towing mirrors™ fold inwards or outwards if accidentally struck whilst 4WDing or parked.

Original Towing Mirrors are much larger than any standard mirror and feature a huge single mirror above a smaller convex mirror - for serious towing!

ORIGINAL TOWING MIRROR FEATURES:

- Available for over 40 vehicle models.
- Telescopic arms with 2 different driving positions, Normal Driving Position and Extended Towing Position.
- Sturdy steel arm construction won't retract when driving at high speeds or when passing large trucks.
- Very large top mirror 1:1 ratio. This large, flat mirror provides a narrower field of view, reflecting true distance for reversing. It provides an exact reflection of what's happening behind you.
- Smaller bottom mirror. This slightly curved mirror makes objects appear closer than they are. The convex mirror reduces the objects that it reflects, allowing the driver to have a much wider field view and diminishing blind spots. This mirror provides a better understanding of what's happening around the vehicle.
- Extends up to 103mm for towing
- Choice of Manual or Power Folding feature on certain models
- ADR compliant, tough Australian design built to last.
- Clearview towing mirrors™ fold inwards or outwards if accidentally struck whilst 4WDing or parked.

TROUBLE GETTING IN AND OUT OF YOUR VEHICLE? REVOLUTIONISE YOUR TRAVEL EXPERIENCE WITH CLEARVIEW™ POWER BOARDS.

If your vehicle is built for off-road and has been lifted for clearance, stepping in and out of the vehicle can take more effort! Clearview Power Boards provide a safe stepping surface without sacrificing all-important clearance!

These retractable side steps provide an easy and safe way to step in and out of your vehicle.

Clearview Power Boards are fitted under the vehicle, running along the length of the vehicle between the wheel arches on both the driver and passenger sides.

Clearview Power Boards are triggered by the vehicle's door sensor. When the door opens, the Power Board is activated and automatically "lowers" up to 300mm (depending on model) to a convenient stepping height. When the door closes, the Power Board will automatically retract back to the body of the vehicle.

The inbuilt safety feature activates if any resistance is felt on the step resulting in the step holding its position. Opening and closing the door again will deactivate the Power Board's safety stop.

With 300kg load capacity, safety cut off feature and IP68 rating on the motors, accessing your vehicle is as easy as one step up.

Features include:

- The best of both worlds - Retracting side steps descend on opening and retract on closing, making it easier to get into the car without sacrificing ground clearance.
- A hefty 300kg load capacity per step
- Safety cut off feature in built whereby if the Power Board senses any resistance during opening or closing, it holds its position.
- 2 or 3 (depending on vehicle model) mounting brackets on each side provides additional strength and durability for when you need it most
- IP68 rated motors
- No drilling of new holes required - designed to mount into existing OEM holes
- Plug & play installation
- Maintenance free
- Easy to clean!

Rock Tamers™ 2" Hub Mudflap System Matte Black/Stainless Steel Trim Plates (Includes 1 x 850mm Rock Screen insert)

ROCK TAMERS™ are the premiere adjustable and removable mudflap system, providing the ultimate protection when towing caravans, fifth wheelers, horse floats, trailers and more – the perfect solution for anyone wanting the utility of heavy-duty mudflaps whilst maintaining your vehicle's stylish appearance.

Protect your investment. A quality mud flap system will help protect your vehicle and trailer, caravan, or boat from preventable damage. Rock Tamers™ help prevent rocks from continuing to bounce along the underside of the towable, preventing further damage.

There when you need it. Easy installation and removal with no drilling required, makes Rock Tamers™ a convenient solution for when not towing full-time. When installed, Rock Tamers™ don't restrict access to the back of your tow vehicle.

Save money with Rock Tamers™. Not only are dent repairs, paint touch ups and broken rear windscreens costly, but Rock Tamers™ can be transferred from vehicle to vehicle, extending the usable life of your purchase! Rock Tamers™ are versatile and adjust to whatever you're driving and whatever you're towing. You don't need to purchase a different size if changing caravan or trailer size, or when swapping between towables. (i.e. boat, camper etc)

Features include:

- Rock Tamers™ Mudflap patented system is easy to attach or remove from any standard 50mm draw-bar (purchased separately)
- Mudflap height is adjustable to maintain consistent ground clearance when towing various loads
- Overall width is adjustable and easily fine-tuned to fit most tow vehicles
- Adjustable width (1695mm – 2380mm)
- Full sized 9mm thick rubber mud flaps (610mm x 610mm) moulded with a layer of tear-resistant fabric.
- Mud flaps can be cut to fit your specific vehicle application
- Back of mud flaps features anti-splash pattern
- Heavy gauge aluminium support rods anodized to withstand corrosion.
- Centre hub and arms are made of aluminium that will not corrode or rust
- Stainless steel mounting hardware
- Stainless steel trim plates
- Includes free 850mm wide Rock Tamers Rock Screen

With their matt black, powder-coated UV protected finish, forged aluminium hub and arms, stainless steel support rods with zinc coating and full-length black rubber flaps, ROCK TAMERS™ are the top quality, high-performance mudflap system you've been waiting for.

BONUS 850mm wide Rock Tamers™ Rock Screen attaches between the two Rock Tamers flaps and eliminates damage from stones, gravel, small debris, tar, etc. while traveling. Rock Screen features include:

- Constructed of a double layer of heavy-duty, rip-stop truck mesh
- Resists fraying/tearing when holes are cut for electrical and hitch penetrations
- Measures 850mm wide x 450mm deep and is 800mm between the top corner eyelets
- Includes 1 mesh insert and attachment hardware

ON ROAD OR OFF ROAD, THE CLEARVIEW TYRE SPIDER™ HELPS MANAGE YOUR TYRE PRESSURE IN ALL CONDITIONS.

The Clearview Tyre Spider™ is designed to speed up, simplify and reduce time bending down and kneeling at each tyre, while managing tyre pressures. Whether you're driving on sand or through muddy/soft tracks, the Tyre Spider will quickly and easily assist you to evenly adjust the tyre pressures of your vehicle, caravan, or trailer.

Designed to work independently OR attached to your vehicle's air-compressor, the Tyre Spider has four main functions:

- Inflation – Inflate up to 4 tyres simultaneously via an air-compressor.
- Borrow Air – Inflate a tyre without an air-compressor by borrowing air from up to 3 tyres.
- Deflation – Deflate up to 4 tyres simultaneously.
- Equalisation – Equalise tyre pressure across multiple tyres simultaneously.
- The Tyre Spider allows you to easily stagger tyre pressures across any combination of tyres via the 4 controllable inlet valves and digital pressure gauge.

Features include:

- An easy to read, LED back-lit digital display for day or night use
- Measurement range of 0-60 PSI
- Capable of reading the tyre pressure in 4 different modes (PSA, Bar, KPa and Kg/cm2)
- 60PSI Balancing tank
- Includes 4 x individual valves, one for each tyre and 1 main valve.
- Each kit contains two 5 metre hoses and two 8 metre hoses for simple application on the longest of wheel-based vehicles.

The Tyre Spider can be used in almost any situation!

KEEP YOUR COOKING ESSENTIALS WITHIN EASY REACH!

The Clearview™ Cutlery Set is the perfect addition to your current Clearview Pantry or camping kitchen to keep all your cooking essentials conveniently in place and organised when on the road.

This 24-piece cutlery set includes 4 x forks, 4 x knives, 4 x tablespoons and 4 x teaspoons, as well as a Chef's knife, bread knife, paring knife, spatula, serving spoon, tongs, chopping board, and even a bottle opener/corkscrew!

Containing all your essential cutlery and cooking utensils, this is your one-stop-shop for all things cooking on the go.

- Conveniently stowed, this cutlery set folds open/closed and can be secured with its straps and quick-release buckle clips, for efficient, safe storage.
- Can be permanently/semi-permanently installed onto the side of your Fridge Cage or table with its two included carabiner clips.
- Individual pockets and elastics keep your cutlery and utensils in place without clanging against each other, preventing scratches or damage.
- The included plastic cutting board is low maintenance and perfect for when on the road!
- Heavy-duty black Canvas provides a durable storage solution

THE WORLD'S FIRST PATENTED, ALUMINIUM, POWERED FRIDGE SLIDE!

Lower and raise your fridge with the press of a button for convenient access to its contents.

Designed from the ground up, the Clearview Power Slide's design is lightweight and efficient.

Low Power Consumption

Power consumption is critical in any set up and the Power Slide's low current draw makes it suitable for most existing battery setups.

When empty, the smallest Power Slide draws a max current of 4.0 Amps during lowering, and 5.2 Amps during lifting. When loaded with 80kg, it draws a max current of 4.0 Amps during lowering and 13.0 Amps during lifting. The largest Power Slide draws 3.1 Amps and 4.1 Amps respectively when empty and 3.1 Amps and 11.0 Amps respectively when loaded with 100kgs.

Lightweight Efficiency

A large, fully stocked fridge can be extremely heavy, requiring a Power Slide that can effectively function under its weight, without adding unnecessary additional weight to the overall set up.

Weight/GVM is an important factor in any set-up and even the largest Power Slide weighs only 38kg (only 29kg for the smallest Power Slide)!

With a load rating of 180kg, the lightweight Clearview Power Slide™ is designed to smoothly lower and raise a fully loaded fridge. Its unique scissor lift design is supported on each side by synchronized, self-aligning actuators, ensuring that the fridge always remains perfectly level.

Includes 4 x Fridge Straps!

POWER SLIDE DIMENSIONS

PS-S (SMALL)

OVERALL BASE DIMENSIONS 813mm x 544mm
TRAY DIMENSIONS 738mm x 390mm
WEIGHT: 29KG

PS-M (MEDIUM)

OVERALL BASE DIMENSIONS 838mm x 614mm
TRAY DIMENSIONS 772mm x 460mm
WEIGHT: 30.5KG

PS-L (LARGE)

OVERALL BASE DIMENSIONS 965mm x 684mm
TRAY DIMENSIONS 885mm x 530mm
WEIGHT: 35KG

PS-XL (EXTRA LARGE)

OVERALL BASE DIMENSIONS 1041mm x 714mm
TRAY DIMENSIONS 960mm x 560mm
WEIGHT: 38KG

FEATURES INCLUDE

- Tri Scissor Synchro-Lift Technology allows the fridge platform to be lifted and lowered exactly vertically, simultaneously by two actuators. This balanced power generated by a set of synchronized, self-aligning actuators ensures that the fridge always remains perfectly level.
- Gently lowers with the press of a button, allowing you to access your fridge
- Lightweight, aluminium extruded construction makes it lighter than any other fridge lowering slide
- Quick release double runners and heavy duty Travel Lock that is guaranteed not to rattle!
- Innovative design with no exposed cables and 15-amp Anderson Plug power supply as standard
- 180Kg load rating to support a fully loaded fridge
- Smoothly lowers the fridge up to 290mm
- Easy Operation and Installation with self-aligning Actuators

EASY ACCESS TO COLD FOOD AND DRINKS NO MATTER WHERE YOU'RE GOING

The Clearview Easy Slide™ is an ADR and OHS compliant quality-designed product that can be easily installed in your vehicle, so you have easy access to cold food and drinks no matter where you're going.

This state-of-the-art fridge lowering slide is easy to use and access from the back of your vehicle or from within your canopy.

Simply unlock the travel lock mechanism, pull down on the yellow ergonomic slide quick release runner levers and pull the fridge towards you to full extension. A gas strut-assisted vertical scissor lift action and safety latch system then allows for safe and easy lowering of your fridge, providing convenient access to its contents.

Accessing your fridge has never been easier, or safer!

that is guaranteed not to
rattle

MAXIMUM STORAGE, MINIMUM WEIGHT

Future proof your set-up with an Aluminium Fridge Cage that adapts to your needs.

Store your gear safely around your fridge without restricting critical airflow with a Clearview™ Fridge Cage!

Your fridge compressor will produce heat whilst working and its important to allow sufficient space around the fridge for this heat to escape.

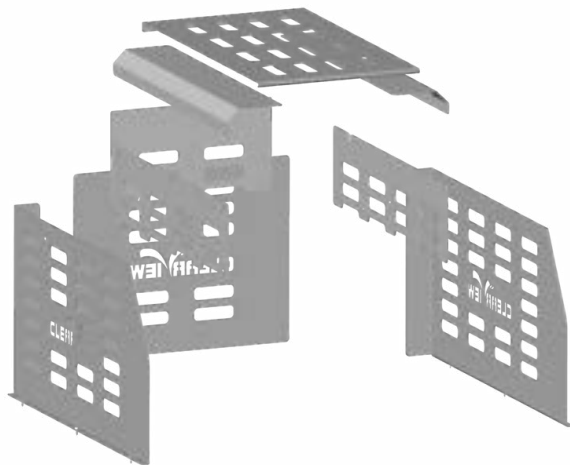

Fridges often change as circumstances change, so we designed a Fridge Cage that would adapt to your changing needs. The ES-100 /ES-150 Fridge Cage is both width and height adjustable to fit a variety of fridge sizes and Easy Slides. The Fridge Cage can be lowered to 3 pre-defined positions that are 50mm apart. Its footprint can also be adjusted to 2 pre-defined widths, to accommodate either our ES-100 or ES-150 Easy Slides, saving valuable storage space.

DESIGNED TO ADAPT TO CHANGING FRIDGES AND SLIDES.

- Protect your fridge from scratches and dents
- Maximise available storage space in your vehicle by stacking your gear safely around your fridge without anything falling behind it whenever you pull your fridge out
- Built tough with high-grade 2.5MM laser cut Aluminium
- Weight/GVM is an important factor in your set-up as you don't want to be travelling in a vehicle that is overweight. Our Fridge Cage weighs in at only 13kg.
- Adjustable height and width to suit your fridge
- Adjustable Height 520mm - 620mm
- Adjustable Width 566mm – 636mm (+40mm securing lips)
- Convenient flat pack design is easy to assemble and install

Avoid loose gear damaging your fridge whilst maximising your storage area in your vehicle.

CAGE-01

CLIP ON TRAY

WHETHER IT'S A DAY TRIP OR LONG TRIP, SPACE IS ALWAYS AT A PREMIUM AND INNOVATIVE SOLUTIONS ARE A MUST HAVE!

The Clearview Clip on Tray is a portable camping table designed to conveniently hang off your Easy Slide or Drop Slide. Each tray is supported by two fold-out legs allowing the tray to hold up to 15kgs in weight. It's easy clip on/clip off design makes it a breeze to set up extra platform space to prepare a quick meal, snacks or a cold drink!

The perfect addition to your set up, the Clearview Clip on Tray is a quick and easy way to instantly create a workable area.

- Light weight, powder-coated Aluminium tray
- Red or Blue Trays available to suit the Clearview Easy Slide or MSA Drop Slide
- Quick and easy to install and remove as required
- Carry bag included to protect the tray when stowed away
- The Clip on Tray conveniently stows away under your Easy Slide!

SMALL TRAY

TRA-01 (Suits Easy Slide ES-100 / ES-150)
TRA-03 (Suits ALL MSA Drop Slide Models)

LARGE TRAY

TRA-02 (Suits Easy Slide ES-220 Plus Model)
TRA-04 (Suits MSA Drop Slide Models DS40SIDE, DS50SIDE, DS60, DS60SIDE, DS95)

KEEP YOUR PORTABLE FRIDGE CABLES SAFE AND PROTECTED WITH THE CLEARVIEW CABLE SAVER.

The Cable Saver protects your portable fridge cable from getting caught or jammed in the bearing runner of your fridge slides, by keeping them up and out of the way. The Cable Saver attaches securely to your fridge slide with its strong magnetised base. 560mm standard height too high? No worries! The tail of the Cable Saver can be trimmed by up to 100mm to meet your preferred height.
